This is the epic story of three beings, locked together as galaxy-spanning conflicts rage around them: *Nium*, last warrior of the mercenary *mri*; *Malein*, last of the priestess-queens of *mri*; and *Sten Duncan*, the Earthman who tries to save them . . .

Conceived and plotted as a single novel, yet with each individual book complete in itself, *The Faded Sun* trilogy is C. J. Cherryh's major work to date and has drawn extensive praise from authors, critics, and fans alike - including a Hugo and Nebula nomination for the first volume in the series.

Our SFBC printings are the first British editions of this extraordinary trilogy. If you have not yet collected all three books, now is the time to do so, whilst they are still available as a complete set.
