Publisher's Edition £5.50 REF NO 5164

The book of the DRAGON

JUDY ALLEN & JEANNE GRIFFITHS

The mysterious, colourful dragon drifts his way through the art and mythology of the ancient and modern worlds like a recurring dream... from East to West and from age to age. Born of clouds and water, he is to be found everywhere... yet is curiously elusive and jealous of his privacy: try to pin him down and he will disappear into thin air. What can explain his extraordinary vitality and power, his absolute refusal to be captured, and his perennial fascination in the human psyche?

This spectacular book does not attempt to bring him down to mundane reality, but instead presents a magnificent tribute to this most extraordinary and compelling of the world's fabulous beasts, bringing together for the first time in one volume images of the dragon in many guises collected from all over the world: Ouroboros, the cosmic dragon, dragons in alchemy, mythology, epic and folklore... oriental and occidental, ferocious and benevolent... celebrated in superb illustrations and fascinating text... an essential handbook for all adventurers into other worlds. 11 x 8½in / 128pp illus throughout, many in colour / biblio / index
