THE VIEW FROM PLANET EARTH

VINCENT CRONIN

The astounding mysteries of the universe have challenged, puzzled and confounded mankind since the dawn of time. What is the nature of the cosmos, and what is our place within it? Are we alone? How did the universe begin and how will it end?

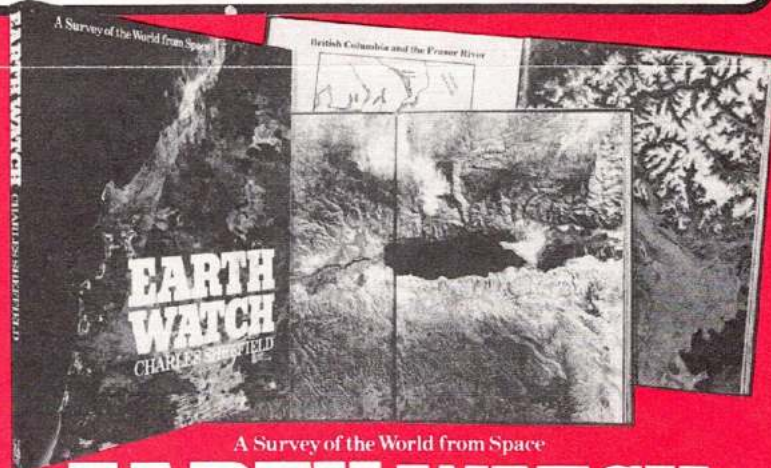

This exhilarating new study explores our evolving view of the universe — from the spirit-haunted cosmos of the Dark Ages to the latest in modern scientific discoveries — and examines the way in which this view has affected our outlook on the world around us, profoundly influencing our values and beliefs in every field. 8½ x 5½in / 352pp / illus / chronology

EARTH WATCH

CHARLES SHEFFIELD

Earthwatch is an astounding and spectacularly beautiful space-eye view of our planet — compiled by Charles Sheffield, NASA expert and leading sf writer. It features over 70 breathtaking computer-enhanced colour photographs taken by the Landsat spacecraft. Landsat contains the most highly advanced photographic equipment, and in these sophisticated images, the whole earth is on display in an unparalleled profusion of rich, dramatic textures and colours. Alongside the photographs, Charles Sheffield has provided an illuminating text explaining exactly what these striking images reveal, and the vital information they contain for our future. Large Book Size: 12½ x 9½in / 160pp / 80pp colour photos / maps
