

## A PERSONAL NOTE

FROM 1st March the Science Fiction Book Club becomes the property of Phoenix House. When I started the Science Fiction Book Club the difficult task of distribution was kindly undertaken by them, and I think it is true to say that without their co-operation it may never have got going. The change of ownership is the only change—our purpose remains the same. *Herbert Jones.*

## CORRESPONDENCE

ALL remittances, inquiries regarding accounts and delivery of books, and notices of changes of address should be addressed to SFBC Accounts Department, Dunhams Lane, Letchworth, Herts. Always quote your membership number.

Any correspondence containing praise or blame, or suggestions about Club books, should be sent to H. J., 38 William IV Street, London, W.C.2.

## WHICH WORLD DO YOU LIVE IN?

THE real world or the world of the imagination? Sometimes it is hard to tell which is which. Sometimes it is simply a matter of time; as sf-ers know quite well—to-day's imagination is to-morrow's reality.

Join us in a quiz on these lines. 'Guess which of the following are true and which are false!'

(1) Has the American Air Force got a general named Homer Boushuet and is he the director of its research branch? And did he say in Washington that an American missile base on the moon would put the Russians on notice that they would face sure destruction if they ever attacked Uncle Sam? And did he say that ultimate supremacy of space, and thereby total control over the earth, should be the first aim of American policy?

(2) Has an American psychiatrist said that the span of man's life would be increased to more than a thousand years if anxiety and frustration could be eliminated?

(3) Are Russian scientists developing an electric machine which will reduce the amount of sleep a person needs to two hours daily?
