# SCIENCE FICTION NEWS

No. 40.

September 1959

## What you're in for . . .

SFBC members have been very trusting in the past. Because of the regulations governing book clubs it hasn't been possible to announce the club's programme of books more than six months —i.e. three books—ahead; every member who enrolled had to take us on trust for the latter portion of his yearly membership.

*Not any more!* We are now able to announce a full year's programme ahead. Programme numbers of *SF News* will continue to be published twice a year: in January and July. The January issue will describe in detail the next *three* books for March, May, and July, and *briefly* the books for September, November, and January.

As this new ruling has only just been made, we couldn't announce the March-July 1960 titles in our last programme number, but here is the complete programme for the twelve months September 1959-July 1960:

This month:

### THE TIDE WENT OUT

by Charles Eric Maine Hodder & Stoughton 12s 6d; SFBC 5s 6d

November

### DOUBLE STAR

by Robert Heinlein

Michael Joseph 13s 6d; SFBC 5s 6d
